

GMP Separation Services

SFC (Supercritical Fluid Chromatography) separation suite, a new, fully equipped and GMP-qualified sector within the analytical R&D of WuXi AppTec, starts operation in September 2009 to suit increasing demands for chiral synthesis and separation from pharmaceutical organizations.

WuXi AppTec is a global leader in providing discovery, testing and manufacturing services for the pharmaceutical, biotechnology and medical device industries. Research-driven and customer-focused, with operations in China and the U.S., WuXi AppTec offers a broad and integrated portfolio of services designed to assist our customers with cost-effective and efficient outsourcing solutions.

Complete SFC services

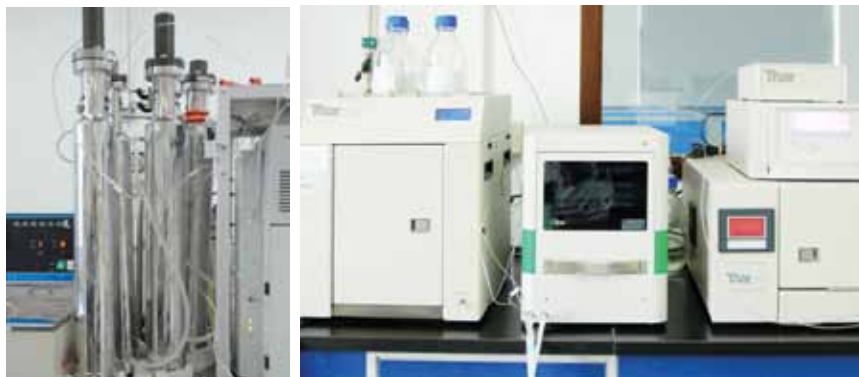

- Chiral structure elucidation
- Chiral API release
- Chiral separation method development
- Chiral separation at preparative scale
- Chiral separation at production scale
- Chiral separation with GMP compliance

Fact Sheet

- Full GMP-compliance, passing US/ Europe customer audits since operation
- Charge-free chiral screening and initial assessment
- Tens of chiral separations (GMP or non-GMP) completed
- Chiral development and GMP separation of kg scale in 2 weeks
- Chiral separation integrated with services from QA, QC, process analysis and stability
- **Keep improving and growing**

Capabilities

- Preparative SFCs, daily throughput up to hundred grams
- Analytical SFCs, fast screening and chiral analysis
- Preparative and analytical columns
- Types of chiral columns and bulk CSPs
- 100, 000 classified area to process chiral API
- Rota- vapors and vacuum tray dryer
